ICCBR-25 Doctoral Consortium Submission Instructions

Application for Full Participation (mentor interaction, presentation, and publication of research summary)

33rd International Conference on Case-Based Reasoning (ICCBR-25), Biarritz, France
https://2025.iccbr.org/

DC submission deadline: 14 April 2025
DC date: 30 June, 2025 (opening evening gathering 29 June, 2025)

DC INFORMATION

For full details on the DC, please see the DC Call available on the ICCBR 25 DC web site: https://2025.iccbr.org/call-for-dc-applications/

INSTRUCTIONS FOR FULL SUBMISSIONS

We welcome applications from Ph.D. candidates worldwide doing research in case-based reasoning or applying CBR in their research. Masters students may apply as well. To apply, please submit the following materials, in a single PDF file, via the ICCBR EasyChair submission system (Doctoral Consortium 2025 track*): https://easychair.org/conferences/?conf=iccbr2025*

- *Application Cover Page (max 1 page):* This should include your goals for participating in the DC, questions on your research topic or research to date that you may wish to discuss and get advice on, and what you can offer to other DC participants. Please also include (1) the time at which you began your Ph.D. studies, (2) your estimated graduation date, and (3) names of your advisor/supervisory team (if they have been selected) so we don't assign one of them as your mentor!

- *Research Summary (max 5 pages):* This should outline the problem(s) being addressed, the proposed research plan, and a description of progress to date. This short paper must include references. It should be in the ICCBR 2025 CEUR workshop paper format.
  You can use the following template for your research summary:
  https://www.overleaf.com/read/ncdzvxdbnxkp#ce1470

- *Curriculum Vita (max 1 page):* This should list the student's most relevant background, experience (research, education, employment), and publication references (if any).

- *Letter of Recommendation (max 1 page):* A written communication from your Ph.D. supervisor, including an assessment of the research status and an expected completion date.
  Non-PhD students are also welcome to apply and should provide a letter from a suitable adviser (e.g., at their institution).

Note: The Application Cover Page, Research Summary, CV, and supervisor's support letter should all start on new pages within the same PDF file. Applicants will be notified whether their Research Summary has been accepted for oral presentation at the DC by April 27, 2025. A final camera-ready version of the Research Summary paper to be presented will be due on May 1, 2025. Accepted applicants are expected to commit to attending all DC activities at the conference.
